Automatic electronic cuber:

- Electro-mechanic operation.
- Turning system at 90° and 180°.
- Four sides grasping, with electronic control.

Vibration:

- Unidirectional synchronized vibration. Driven by one only motor (patented).
- Lubricated by permanent oil bath (minimum maintenance).
- Adjustable parameters of vibration.

Hydraulic group:

- Piston pump and variable flow.
- Power: 30 HP.

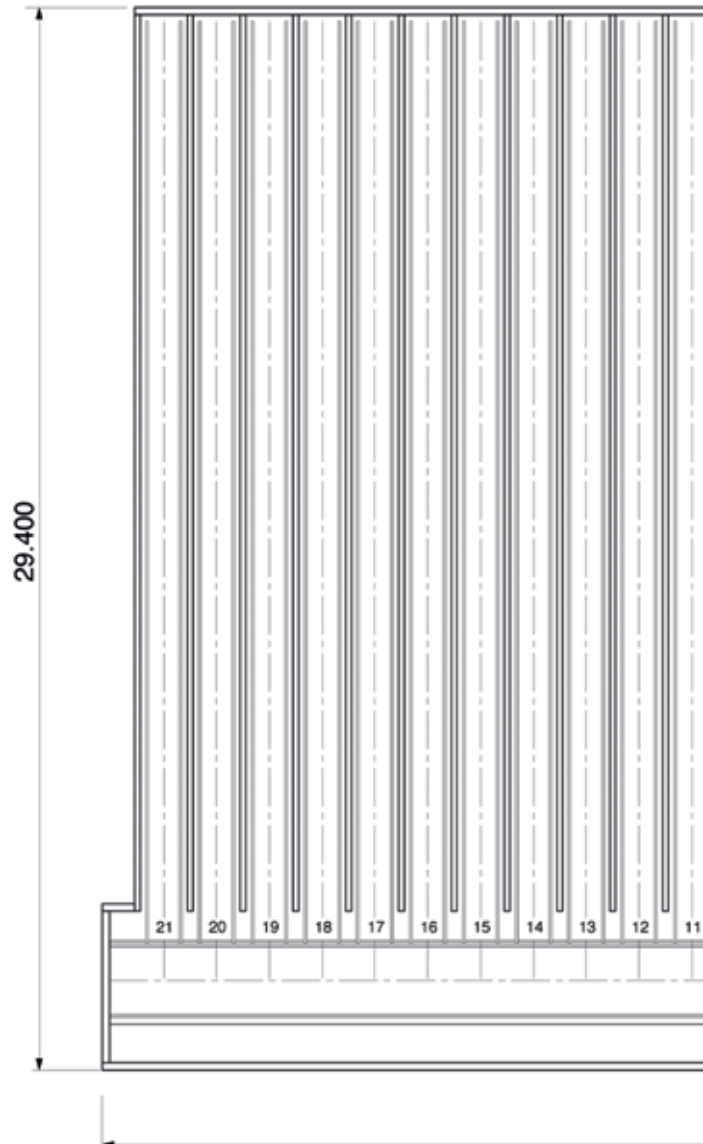

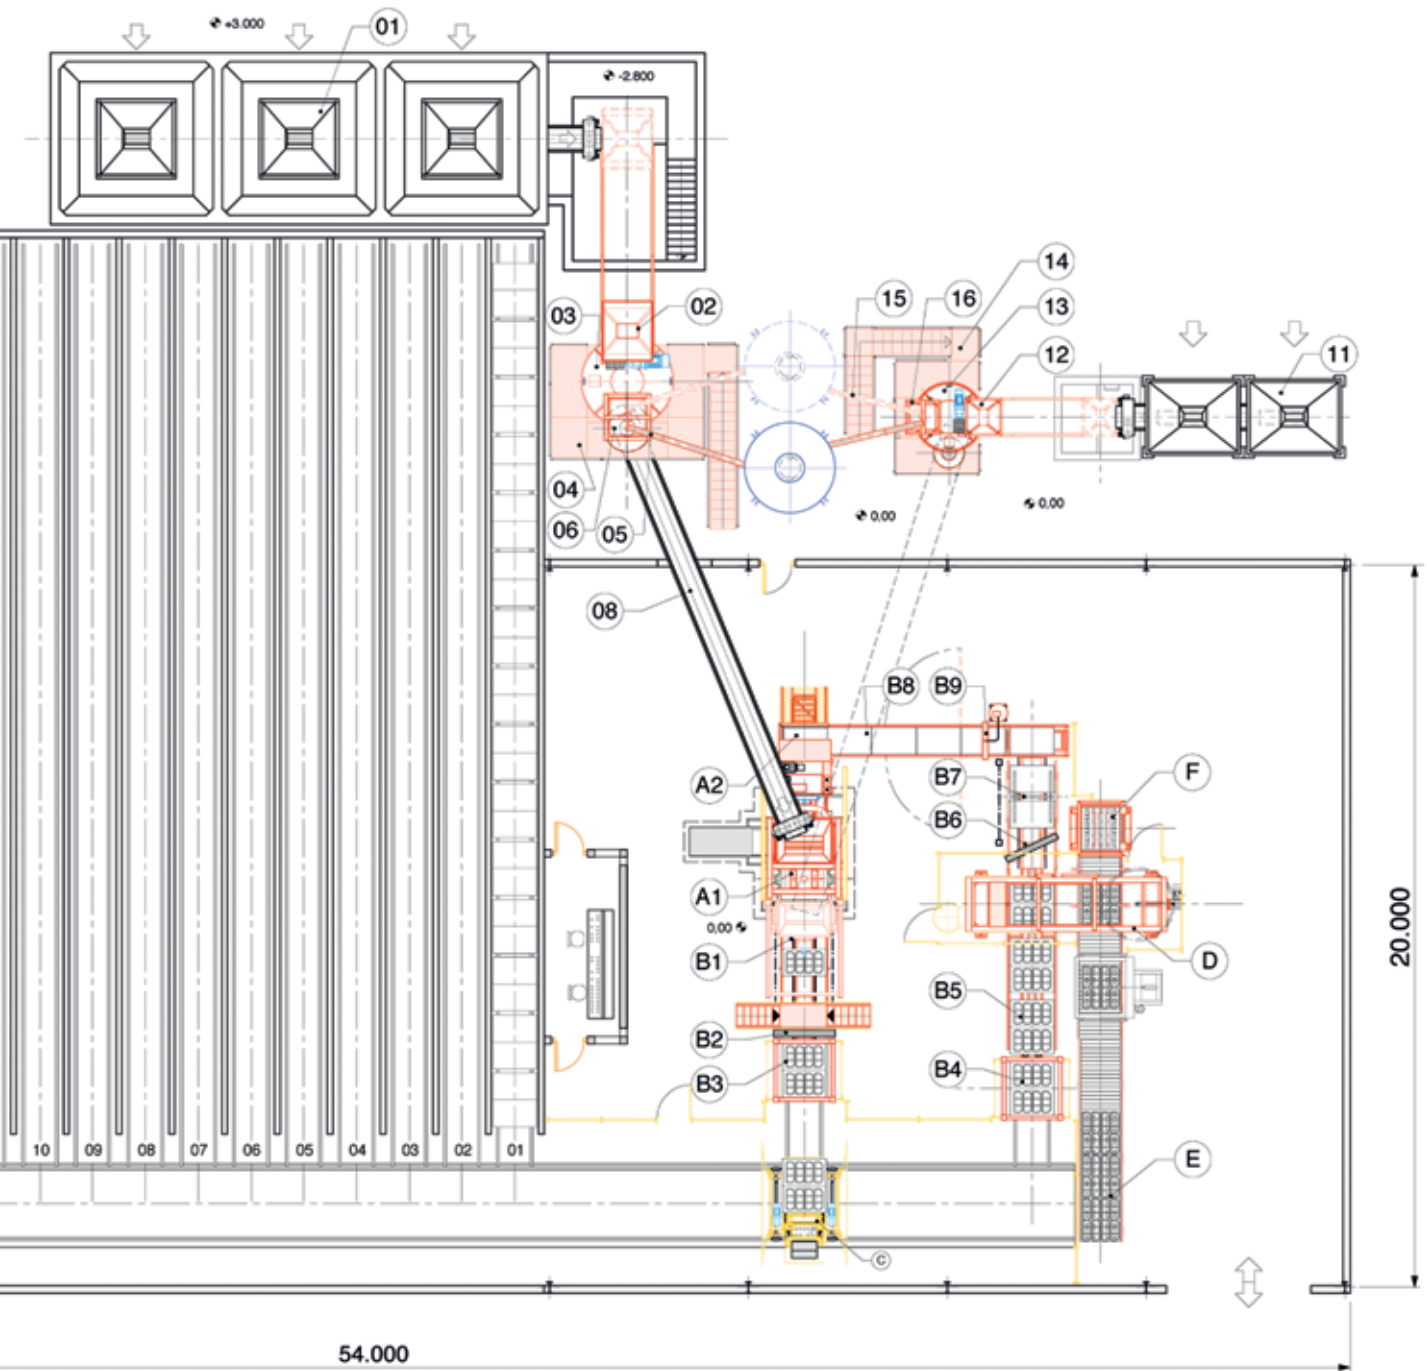

Finger car:

- Elevator trolley of 10 levels ,electro-mechanic operation.
- Automatism and electrical setting for total automatic programmable operation.
- Optional 180° turning.
- Loading capacity: 5 Tn.
